

Landform Quiz

When is it?

- Monday, October 7th

What is the format?

- Multiple-choice questions
- Short answer
- Matching

What does it cover?

- Plate tectonics- definition and drawing of 'convection currents', 'transform plates', 'divergent plates', and 'convergent plates'.
- Landforms note- know the 5 landforms, the definition of each, and a few examples of where they occur.
- Why are landforms important?

How do I study?

- Reading notes over, over, over, and over (Ruben)
- Writing out definitions for each term (Ruben)
- Sign out a textbook and review Chapter 1 readings (Abby)
- Go onto Quizlet and find quizzes about plate tectonics (Ruben & Sarah)
- Make a game out of the content (Sarah)
- Create a song to remember the names of the plates or 5 landforms (Sarah and Ruben)
- Asking your parents or friends to quiz you on the content (Sarah)
- Watch video clips about plate tectonics and landforms (Ruben)
- Break up the studying- do a little bit each day (Mrs.B). Make a schedule and plan out when you will study (Ruben & Sarah)
- Record the quiz due date and studying plan in your Google Keep (Mrs.B)
- Make flashcards of definitions (Sarah)

- Ask Mrs.B if you need help (Ruben)
- Make an empty chart and try to fill it all in by memory (Sarah)
- Study with a partner and talk about material out loud (Ruben)

Here is a visual of our discussion today about why landforms are important:
